Receiving and fixing eletronics from clients. Making all necessary for acomplish client's needs.

Assignment history

SQL Server DBA

North American Telecomunications company., Brazil | Mar 2012 - Present

Telecommunications industry database maintenance.

Contribution: Microsoft SQL-Server DBA.

Ensure databases Health and Availability, as well as security and recovery in the case of a problem in the system.

Primary DBA of two systems, one called FLUX and other REVEAL.
FLUX and REVEAL are data warehouse systems charged to hold data from the RF systems that Sprint provides to clients.

FLUX and REVEAL were decommissioned and now it is moved to PRTS-RAN for FLUX and PRTS-PCMD for REVEAL. I am still primary DBA for both.

Additional information

Performed missioner role from 1997 to 2007 in Montes Claros - MG, Brazil.
